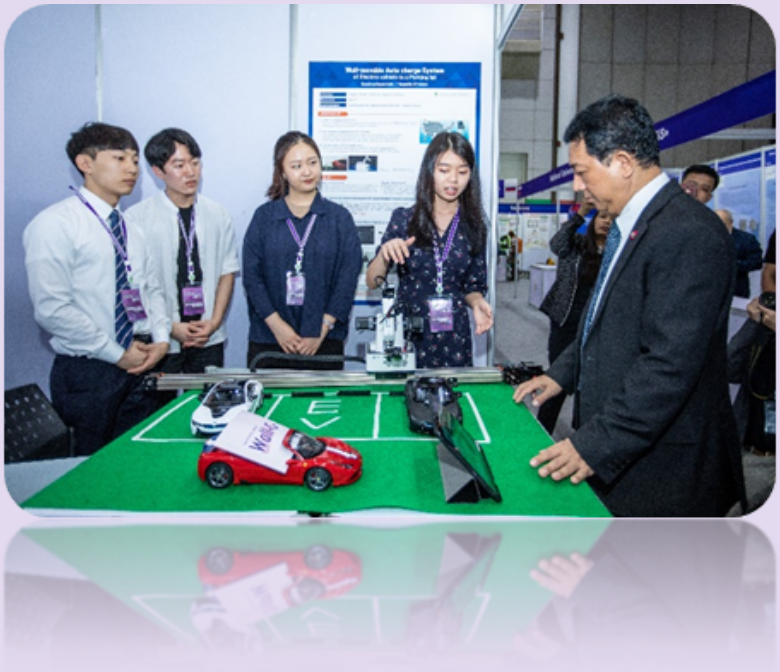
ABOUT THAILAND INVENTORS' DAY

The National Research Council of Thailand (NRCT) is a government organization holding status as a department under the command of the Ministry of Higher Education, Science, Research, and Innovation. NRCT acts as a key unit to promote and drive research, invention, innovation and technology transfer to related users in both the private and public sectors. Long-term cooperation from our partners since 1995 made Thailand Inventors' day successful.

One of the largest invention exhibitions in Thailand

The Cabinet resolved on 10 May 1994, to declare 2 February of every year as the Inventors' Day in Thailand, to commemorate the achievement of His Majesty the King Bhumibol Adulyadej, the Father of Thai Invention, in inventing the "Low Speed Surface Aerator" or the so-called "Chaipattana Aerator". On 14 August 2001, NRCT has been assigned to be the leading agency, coordinating with other government agencies and the private sector to organize Thailand Inventors' Day. Since then the event has been held to open floor to all Thai and international inventors to exhibit and promote their inventions, new products or new techniques as well as to share experiences among themselves. Therefore, the fruitful commercialization and cooperation in research, invention and innovation will be operated effectively.

Activities in Thailand Inventors' Day



- **National Invention and Innovation Exhibitions:**

- National Research Council of Thailand Award
- Awarded Thai Invention and Innovation in International Contest
- Thai Inventions and innovations from Universities, research institutions, and the public and private sectors

- **Invention & Innovation Competition:**
  - Competition of Thailand New Gen Inventors
  - Competition of international inventors at Bangkok International Intellectual Property, Invention, Innovation and Technology Exposition (IPITEx)

- **Commercialization of Innovation** from Startups and Small and Medium Enterprise (SMEs)

- **Conferences and workshops** on invention development (Only in Thai language)

- **International Invention and Innovation Exhibition:** Bangkok International Intellectual Property, Invention, Innovation and Technology Exposition (IPITEx)

ABOUT BANGKOK INTERNATIONAL INTELLECTUAL PROPERTY, INVENTION, INNOVATION AND TECHNOLOGY EXPOSITION (IPITEx)

- **Standard booth:**

3 m x 3 m x 2.4 m (W*L*H)

- **Provided Facilities:**

- Fascia board with name of leading organization
- Electricity (220V, single phase, 60 Hz., 1 KW. per booth)
